Tim Gee Biography

Tim Gee is Principal and founder of Medical Connectivity Consulting, focused on workflow automation through the integration of medical devices with information systems, and enabling technologies. Tim provides strategic and tactical consulting for providers, medical device manufacturers, and health care IT vendors.

Tim has 25 years of health care experience with care delivery processes, therapeutic and diagnostic modalities in most clinical areas, in addition to e-health connectivity between physicians, hospitals and payors. Areas of expertise include IT governance, merging of Biomed and IT functions, wireless medical devices, converged medical device/enterprise networks, requirements elicitation, regulatory affairs and strategy, connectivity, interoperability, diagnostic and point of care workflows, and patient flow optimization in ambulatory and acute care settings.

Tim has served numerous providers and vendors, including: Abbott Point of Care, ACIST/Bracco Diagnostics, Ascom, AtlantiCare, Awarepoint, Baxter Healthcare, Biotronik, Capsule Technologie, CareFusion, Cerner, Cisco, Eka-hau, Extension, GE Healthcare, Hill-Rom, Intel Digital Health, Providence Health, Robert Wood Johnson University Hospital, Spectrum Health, Stryker, Virtua Health, Voalte, Welch Allyn, West Wireless Health Institute and others. He also serves as an advisor to startups.

Tim speaks frequently at industry conferences and corporate events. He is the program chair for the Medical Device Connectivity conference, has spoken at the mHealth Summit, AAMI Conference, Healthcare Unbound, Collegiate Entrepreneurship Venture Forum, HIMSS, Remote Service Infrastructure conference, and Optimizing Observation Patient Management conference and others. He also speaks at national sales meetings and user group meetings.

Journals and magazines that have published articles written by Tim include 24x7, AAMI's IT Horizons, Journal of Clinical Engineering, MX Magazine, Patient Safety & Quality Healthcare. Tim has served on the editorial advisory board of a number of publications, and publishes the blog [Medical Connectivity](#). He also participates in the IHE Patient Care Device domain and other industry initiatives.

Prior to founding his consulting practice, Tim worked for medical device, health care IT and wireless vendors, including: Philips Medical Systems, Welch Allyn, e-health connectivity startup Pointshare, AT&T Wireless, Corometrics and Baxter Systems Division.
